How it works

There are two **Pathways** through the course so that you can

 focus separately on your spoken and written Chinese.

The pathways are divided into **Sections**, each with a theme and objectives.

文 The goal of each Section is for you to say or write a **“text”** in Chinese.

Build up to each “text” one simple step at a time by:

字 Picking up a new **character**
词 Using it to unlock multi-character **words**
句 Putting those words into **sentences**

法 There are also explanations of sentence patterns to help you.

Along the way

You must complete the **starred items** on each Pathway. The others are bonus material.

Halfway through there is a compulsory **mid-course test**, so that you can see how you are doing. There is also an optional test at the end of the course if you'd like it.

In each section, there are additional auto-generated and teacher-made **exercises** if you wish to do extra practice – flashcards, pairs matching, true/false, printable character-tracing sheets etc.

You have up to a year to get to the summit, and **pass at least one test** at HSK Mock.

Certified Courses

At the top

When you reach the summit, you have **covered all the material** you may be tested on.

Hop over to [hskmock.com](https://www.hskmock.com) (or the HSK Mock mobile app) and take an official HSK or YCT practice test on your computer or phone.

When you have passed at least one test, go back to your Certified Course dashboard to select the test results you are most proud of and **submit your records** for review.

Assuming everything is in order, your HSK or YCT **certificate** from Chinese Testing International will be emailed to you within a few days.
